THURSDAY EVEG, APRIL 8, 1920.

IS IT THE "SILLY SEASON!" I oth the public and the coal and coke producers will look upon me threats emanating from Washington with respect to a re-imposition of fixed prices for coal and coke, and the wholesale prosecution of profiteering dealers, in just about the temper and frame of mind as they have regarded oil or rodomontades of Attorney General Palmer.

These threats will be appraised at their true value as another of the many schemes designed to fool the public into believing that the differout agencies of the Administration are tireless in their efforts to save the people from the machinations of the grasping and greedy corporations, and incidentally perform the function of a 1920 model vote catcher. Flushed with his dictories over the high cost of fixing. the complete elimination by deporta-tion of all the "Reds" in America, and the condign punishment he has never out to the food and clothing profit ers. "the Fighting Quaker" attorney gen-erals and "also ran" candidate for the presidential nomination in Mich gan, has seized upon the fuel price situation as another opportunity to prove his mettle as the sleepless and unitr-ing champion of the "dear peepil." The fact that the Lover Act has been

Reproduces All Tonal Beauties

STILL the very latest and most advanced in phonographs is The Brunswick. This remarkable instrument has attracted nation-wide attention. Chiefly because of the Brunswick Method of Reproduction. This new development brings finer tone for every record, whatever make. No other instrument has these advanced ideas

Now Brunswick Records

We bring now as a further contribution to the phonographic art our own make of records. We include all the fine standards of today, yet add what we consider a vast improvement. And this we know will be the verdict of the rebuilt.

This is the secret—each Brunswick Record is interpreted by a noted director or an accomplished artist technically trained in the art of recording. Thus we unite the talent of the artist with the genius of the composer.

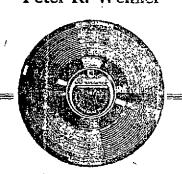

Brunswich

We feel sure that you will recognize the betterment brought out by this idea. We want you to judge Brunswick Records by those same severe tests with which people have judged Brunswick Phonographs. And that is by comparison.

Remember—Brunswick Records, will play on any phonograph with steel or fibre needle.

aprevailing as to the financial condi-ations of the Connellsville basebali club which was called to the attention of the public in yesterday's papers has brought forth several royal supporters of the game. The statement that the club was in need of funds to erect stands for the patrons of the nation-al pastime has done much in the way of bringing financial assistance, the citizens evidently realizing that the club was doing all in its power to look after its welfare. The public is beginning to look at the matter in the prop-Ler light,

fer light.

Several men who know bow to use a hammer (not the hanning variety)
have come forward offering their services to erect the bleachers and standards. This offer will be accepted so as to Ekeep down expenses. The only draw-back looming up is the lack of lumber Zand the wherewithal to purchase same The suggestions of some that the club put on some games without seating arrangements would do the came more harm than good. If this should come to pass, the club would rather abandon the project entirely. To begin with, those who would be in favor of such a movement now would be the first ones to set up a "yell" about there not being any seats and would reuse to pay admission to see the next game. Furthermore, no visiting team would want to play under such conditions.

Let us trust that the public will realize that the Connellsville baseball club is extending every effort to give this city up-to-date, and fast games, and will see the club through with the project. If the club cannot get the necessary support, the money already donated will be returned to the vari-ous contributors and these royal sup-porters' names will be published in these columns with the amount of atheir subscriptions. In this way me addub will set right those who are in favor of the game but who may not the given credit by the public at large as contributors to the fund.

Ask your druggist for three quarters of an ounce of Mentholized Arcine and pour it into a pint bottle, then fill the bottle with water that has been boiled. Gargle the throat as directed and souff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat so clean and healthy that germs of flu or any other germs will have a hard time gaining a foothold.

Don't Buy Blindly

When you buy anything before you see it, you risk disappointment and loss. It may be "exactly as represented" and yet not what you thought it was and what you wanted. You may be getting your money's worth and yet be making a bad investment.

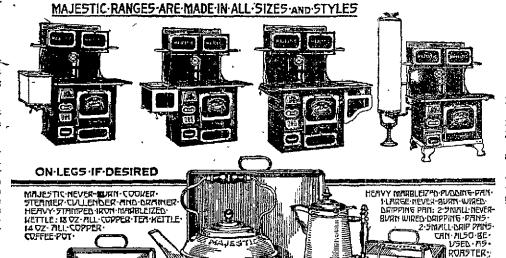

The Majestic Range is here at our store where you can examine it thoroughly. Before you buy, you can prove to your own satisfaction , that it is the best range value.

The Majestic saves repairs and gives longer service than ordinary ranges, because it is made of Malleable iron and Charcoal iron-Malleable from cannot break and permits all parts to be riveted, practically airtight (no stove putty used); charcoal from by actual tests resists rust and crystalization 300 per cent greater than steel. It keeps the hout in and saves fuel. It bakes perfectly without turning, because heat is circulated to all parts of the oven and reflected to all surfaces of the baking by hevay asbstos boards. The Majestic copper reservoir, with one piece heating pocket against fire box, is a famous water

Don't compare the price of the Majestic with the price of a cheap range unless rou compare the quality also. The majestic price is, really not a higher price, but rather a tot more quality for a little

The Majestic Range is sold to people who see it before they buy. Only by actually seeing this remarkable range can you appreciate its many advantages. Give us the opportunity to show you the Majestic the range itself is right here on our floors where you can conveniently

EDUCATION les in KNOWING THINGS-KNOW who the oven of a range is heate!—KNOW how the water is heated—HOW the top is heated—WHY the MAJESTIC uses so little fuel—KNOW how a range is made inside and outside. This education may serve you in the future. DON'T OVERLOOK a chance to KNOW THINGS. COME.

Which Shall It Be?

Do you intend to continue laboring, burning valuable tuel and destroying high-priced food with that old wornaut cook stove?

You KNOW that old stove eats up a lot of fuel each

You KNOW you have trouble in getting it to bake just right, in fact, spoil a batch of bread every once in a whileyou know it costs considerable for yearly repairs.

Stop and think and figure Wouldn't it pay you to buy a good range-a range with a reputation.

SATISFACTION is a great thing, any Majestic user will tell you they would not have anything but a Majestic Wherever we will sell a Majestic we make a customer, bence there is a twofold SATISFACTION.

This Majestic is made in many different styles, Cabinet style, on legs, with or without reservoir and are also made in the COMBINATION GAS AND COAL RANGE. This range has a separate gas baker which is entirely independent from the coal baker, and is the ONLY ABSOLUTELY SATISFACTORY WAY FOR A COMBINATION'RANGE. It has been proven times without number that one baker cannot be built so that it will bake perfectly with gas or coal. A gas baker MUST HAVE AIR and a coal baker MUST BE TIGHT. Therefore we advise that whatever kind you buy do not be fooled on this POINT.

Your wife cooks a thousand meals a year. Your range is used more than all your other furniture combined. Then why not buy the best? The Majestic. THE GREAT MAJESTIC, THE RANGE WITH A REPUTATION WON.

GOLD MEDAL. The highest award at the Panama Pacific International Exposition at San Francisco, St. Louis, Portland, Seattle, Jamestown, Knowville, and Omaha.

For nearly a quarter of a century, ever since MAJESTIC RANGES have been on the market, it has swept from all competitors the highest prizes offered at WORLD'S FAIRS, and similar Expositions. There has not been a single break or exception. This betokens an article of extraordinary and unquestionable merit. It is admitted to mean much when such a prize, is won even once, but when the winning is repeated year after year, and when the Judges are chosen from the most prominent men in their lines, from the four quarters of the globe, we are justified in our contention that we make the best on EARTH.

"Like a Mighty Army Moves The Church of God"

Thirty divisions of that army -thirty denominations-are moving forward in a nation. wide cooperative campaign.

THE army that stands still is really retreating. The Master's command was a forward command,"Go ye into all the World."

/ Out of the war the churches emerged with a new sense of the urgency of that command,

"We must move forward all along the line," they said, and each denomination planned its own "Forward Movement" to deepen the spiritual life of its members and equip itself with money and power.

Then came the greater thought, "It is not enough for us to go forward. We must be sure that there is no duplication of effort; that cooperation prevails; that every man and dollar does its utmost in service.

"We must go forward together."

So the Interchurch World Movement was formed a clearing house through which thirty denominations with-out sacrificing their identity in any way—can cooperate

The average contribution to the church today is less than three cents per member per day. Think of it. Yet if each person who

loves and believes in America will increase his contribution by only a few dollars, the whole amount will be easily subscribed. Will you do your share for a better America and a better world? Your chance to help is coming in the week of April 25th.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Gilve Tablets, the substitute for calonel.

Dr. Edwards, a practicing physician for 17 years and calonel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calonel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to uncatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headachs—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedime.

Thousands take them every night just to keen right. Tr. them. 10c and 25c.
